If You saw a man walking along the road with a sack of coins throwing them at whatever drew his attention, what would you think? That he was wasteful or a fool.

BEWARE! You may be in the same fix. How are your Mowers, Rakes, Stackers, Sweeps, Hay Loaders, etc. Are they throwing away your time, labor and temper, all of which mean money at this season of the year, when labor is expensive and the season short.

We can supply you with the best machinery the market produces, DEERING Mowers and Rakes, DAIN Sweep Rakes, Stackers and Wagon Loaders are all recognized as standards and guaranteed by the Makers.

We also carry a stock of the best axle grease and machine oil at the lowest prices.

I. O. O. F. SMOKER A GREAT SUCCESS

The smoker given by the members of Crossfield I. O. O. F., on Wednesday evening, proved a success in every feature.

The guests to the number of about 100 began to assemble in their Hall at 8.30, and shortly after, chairman M. L. Boyle extended to all a hearty welcome. He was sorry to say that a number who had been invited were unable to attend, and read regrets from Sir Wilfred Laurier, M. S. McCarthy, Ex-Pres Roosevelt and others. He hoped they would spend a pleasant evening, and gave them the freedom of the Hall.

Games were in order, and during their progress, addresses were given by the Revs. Smith and Menzies on the work and objects of Societies which were listened to with rapt attention.

Vocal selections were given by Mr. Schofield which were well rendered and received just applause. A reading by A. R. Thomas needs no comment. Instrumental music was furnished for the evening by Messrs. Knight, McLeod, Edwards, Harvie and Boyce.

The programme was changed here and a three round sparring contest between Ed. Gregory and Ted. Urquhart was announced, the contest showed marked ability in the manly art of self defence on the part of both, who were very evenly matched. Referee Timmins declared the bout a draw.

Another contest was then announced between Douglas Lee and James Maylea which aroused great interest, both contestants having gained considerable notoriety. W. B. Edwards acted as referee and A. R. Thomas timekeeper. The bout went five rounds to a draw, both contestants were given liberal applause for their scientific and good natured exhibition.

Refreshments were served and all went home conscious of having spent a very enjoyable evening.

DEATH OF ARTHUR SAMPSON

Our readers will regret to learn of the death of Arthur L. W. Sampson, whose name was given to Sampson post office, of which he was postmaster until he sold his store business there last year.

A brief message from Edmonton states that his death took place at Athabasca Landing on November 4th, and the funeral at Edmonton on the 9th inst.

Arthur L. W. Sampson who was a general favorite with those who knew him has passed away in the prime of life. He left Crossfield some months ago stating that he was going to work on a government survey party in the far north and since then we have had no word as to his whereabouts until news of his death reached us this week.

Much sympathy will be felt for his brother as well as his sister and other friends who reside in Derby, England.

The Edmonton Bulletin says.—The death occurred at the Sacred Heart Hospital at Athabasca Landing, on Wednesday, of Mr. Sampson, from spinal meningitis. Mr. Sampson, in company with two partners passed through the village three weeks ago for Grande Prairie. Before reaching Moose River he showed signs of illness and the party stopped for a few days. As Mr. Sampson showed no signs of improvement he came down with the mail boat, arriving here Sunday and was taken to the hospital, where everything possible was done for him, but with no avail.

BULMAN—DAVIE

A very happy event took place at the home of Mr. and Mrs. J. S. Davie on Wednesday, November 10th, when Miss Beatrice Davie became the bride of Mr. Joseph Bulman, of Kamloops. The beautiful new home was tastefully decorated with Ferns and Chrysanthemums. At 7.30 p. m. the bride entered the drawing room in the arm of her brother, to the strains of Mendelssohn's Wedding March. She was gowned in a perfectly tailored costume of Mistaria Broadcloth with a hat to match. Rev. W. A. Smith officiated. After the ceremony the guests repaired to the dining room where a sumptuous wedding breakfast awaited them. The grooms gift to the bride was a handsome cheque.

The happy couple left on the 9.10 train amid showers of rice and good wishes, for different points in the East. Among some of the places visited will be Chicago, Buffalo, Toronto and Peterboro. They expect to make a short stop-over visit on their return before leaving for their future home in Kamloops.

A CHARMING PICTURE.

Charming, indeed is the beautiful picture entitled "The Soul's Awakening," given with the Family Herald and Weekly Star, of Montreal, this season. It is difficult to find words to do the picture justice. It is an inspiration to look at. There is a beautiful lesson in this sweet picture, and every house would be the better of a copy adorning its walls. This picture is 12x14 inches ready for framing and is absolutely true to all who subscribe to that great family and farm paper the subscription price of which is only one dollar a year. A dollar could not be better spent. Either picture or paper alone is worth more. The Family Herald should be kept busy entering new subscribers this season.

NOTES AND COMMENTS.

If you want your town to improve,
improve it. If you want your
town lively, make it. Don't go to
sleep, but get up and work for it.
talk about it and talk favorably. If
you have property, improve it,
paint your house, clean up your
alleys and back yards, make your
surroundings pleasant, and you will
be worth more in the market. If
you are doing reasonably well, ad-
vise your friends to come and invest
near you. Work steadily for your
home dealers. Keep your money
at home as much as possible, and it
is likely to help you in return.

The successful towns have been
made by the property owners pull-
ing together. Public improvement
is an investment that pays. Don't
waste your time over dirty quarrels
and hold back your aid from good
objects through spite, but work for
some good and you will find your-
self benefited.

Tie a string about a yard long to
a common door key and take the
string in the right hand, holding it
so the key will clear the floor four
or five inches. If you can hold the
string steady enough the key will
begin to swing; back and forth in a
straight line. Let another person
take your left hand in his and the
motion of the key will change from
the pendulumlike swing to a circular
swing. If a third person will place
his hand on the shoulder of a second
person the key will stop. Try it
and then explain if you can.

Feast and your friends are many;
fast and they cut you dead; they'll
not get mad if you treat them bad,
so long as their stomachs are full.
Steal if you get a million, for then
you can furnish bail; its the great
big thing who gets out on leave,
while the little ones get to jail.
Advertise and the dollars come to
you; quit and they fail to come in,
for what care the men who have
money to spend, for the men who
don't care to see them.

Bad luck is only a man sitting
on the corner or lounging around
a red-hot stove in the corner grocery
store with a pipe in his mouth, and
expecting tobacco juice, looking to
see how things turn out. Good
luck is the pluck of a man with his
own sleeves turned up, hustling like
a Turk to make things come out all
right.

The kickers and croakers have no
place in a city with the push and
progressiveness of our town. The
man who opposes needed public
improvements and stands in the
way of progress is not a good citizen.

The wife of Abdul Hamid, the
deposed sultan, died suddenly of
heart disease at Constantinople, on
October 30th.

There is a rumor that Earl Grey
will be succeeded as governor-general
of Canada by Lord Morley. An-
other rumor suggests the Earl of
Crewe.

The man who could run a news-
paper to suit every body, went to
heaven long ago.

DOCTORS SAID ONLY ZAM-BUK COULD CURE HER ECZEMA

In view of the numerous cases which Zam-Buk has worked when all else has failed, there is little wonder that in the end the doctor attending Mrs. J. P. St. Denis, of 306 Thompson Street, Winnipeg, should tell her there was nothing but Zam-Buk could cure her. The result showed the far-seeing wisdom of the practitioner, and having been completely cured by Zam-Buk, Mrs. St. Denis gives her experience for the benefit of other sufferers. She says: "Eczema started on one side of my face and nose. At first my nose felt sore, similar to what one feels when having a bad cold. I paid no attention to this, thinking it would pass away in a day or so, but to my surprise it got worse. The nose then became swollen and hard, and turned a purplish red, as well as part of the cheek on that side of my face."
"As the disease developed pimples and ulcers broke out, then the skin cracked in places and peeled off in flakes, leaving my face and nose raw and sore. This condition reacted on my general health, and I became very ill. I could get no sleep at night because of the irritation and the pain, and my face was in such a shocking condition that for two months I could not go out of the house. I applied remedies which were supposed to be good for skin diseases, but in vain."

My doctor also treated me, but without effect until one day he said that the only thing which would help me be likely to cure me was Zam-Buk.

"Acting on his advice, I procured a supply, and found that even the first few applications had a soothing effect on the sores. I left off everything else in favor of this balm, and applied it liberally on my face and neck. In a remarkably short time, considering the obstinate nature of my disease, we saw traces of improvement, which encouraged us to persevere with the Zam-Buk treatment. Zam-Buk reduced the discoloration, the hard swelling began to show traces of leaving, the sores seemed less angry, and in about three weeks' time most of the sores were healing nicely. To cut a long story short, I continued with the Zam-Buk treatment until my face was cleared completely of all traces of the troublesome and painful eczema."

Such was the experience of Mrs. St. Denis, and scores of other sufferers could tell of similar experience. Zam-Buk is Nature's own healer, being composed of pure herbal healing essences, and free from all trace of harmful animal fat or mineral poison. It is a sure cure for cuts, lacerations, burns, eczema, ringworm, poison wounds, festering sores, bad leg, and all skin injuries and diseases. Zam-Buk is a cure for piles, hemorrhoids, and stores everywhere sell it at 50c a box, or post free from the Zam-Buk Co., Toronto, on receipt of price. You are warned against cheap and harmful imitations sometimes represented "just as good."

The Reason
Chawley Steele—"I am always carried away by that tune you just played."

"Miss Pert—"That's why I played it."

A Thorough Pill.—To clear the stomach and bowels of impurities and irritants is necessary when their action is irregular. The pills that do this work most thoroughly are Paralee's Vegetable Pills, which are mild in action but mighty in results. They can be used without fear by the most delicately constituted, as there are no painful effects preceding their gentle operation.

THE WISE MOTHER DOCTORS BABY WISELY

Nowadays wise mothers do not dase their children with nauseous, griping castor-oil or purgatives, nor do they give them poisonous opiates in the form of soothing medicines. Baby's Own Tablets take the place of these harsh and dangerous drugs, and the mother has the guarantee of a government analysis that the tablets are absolutely safe, and will cure all stomach and bowel troubles, destroy worms, break up colds and make teething easy. Mrs. Thos. Craft, Bunsford, Man., says: "I have used Baby's Own Tablets for constipation and teething troubles, and do not know of any other medicine that can equal them. They are always satisfactory in their results." Send for medicine orders or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

BETTER RELATIONS BETWEEN ENGLAND AND GERMANY

The Possibility of an Anglo-German Understanding in New Under Consideration—Mutual Assistance May Be Made by the Two Powers in Writing—King Edward as Peace-maker.

Berlin.—The possibility of an Anglo-German understanding appears to be under consideration in high German government circles. The failure to reach such an understanding heretofore is attributed to the method adopted by Great Britain. After Sir Charles Hardinge, prominent under secretary of the British foreign office, failed to obtain a satisfactory reply, his suggestion made at the meeting between King Edward and Emperor William at Kronberg, King Edward is understood to have tried to persuade the emperor of Austria, whom he met at Ich, to make friendly representations to Germany. The author of an anonymous communication which appeared in the *Kreuz Zeitung*, discusses this subject and asks "what can be done to restore normal relations, a feeling of security against German invasion, and to silence the mischievous charges concerning the naval preparations being made in the two countries. Chancellor von Bethmann Hollweg's rather obscure hints to Vienna," says the correspondent, "would seem to indicate that he was dwelling upon this question." The writer adds that mutual assurances might be made in writing.

Temperance Forces Unit for Fight. Regina, Sask.—There is every likelihood of holding a national provincial temperance workers in Regina during the session of the legislative assembly which will convene in a few weeks. A committee of the Social and Moral Reform association will meet to discuss details and to make the call for the convention will be given to press upon the legislature the amendments wanted by the temperance people. C. B. Keenleyside, provincial secretary of the social and moral reform returned from a ten days campaign in the Prince Albert line. At Hanley temperance forces set to work at once, secured the necessary permits, and bylaw given two readings by the council and now the fight is on in earnest. This makes eight laws which will be taken this year. At Saskatoon five good houses greeted Rev. A. B. Henry and C. B. Keenleyside with enthusiasm was manifested and steps taken to organize at once.

Regina Man Honored. Regina, Sask.—The honor of receiving one of the most important appointments in the university of the province has been conferred upon a Regina man, Mr. John Brackman, who has been in the capital for some time here. He received the appointment to the chair of professor of agronomy, previously known and held here by Mr. Brackman will have full charge of this department of the work at the university, and it is expected that he will be intended to travel, visiting several of the important universities which has this course in the curriculum.

A Scientist and Not Animal Killer. Chicago.—E. M. Newman, a Chicago publisher, returned from a tour of six months in Africa, during which he met the Roosevelt expedition. His first meeting was in July, when reports had already reached that Roosevelt of his alleged "slaughter" of animals had appeared to be distressed in consequence. Mr. Newman says Roosevelt shot nothing but lions, which are regarded as a pest, and specimens desired by the Smithsonian Institute.

Million for Technical Schools. Toronto.—A special committee despatched to New York, Boston, Cleveland and other United States centres by the board of education here, has reported in favor of this city's expending a half million dollars in erecting a technical school of seventy-five rooms. They recommended preliminary training being given in all trades and reported that house-keeping should be one of the subjects practically taught.

Halifax Wants C. P. R. Halifax.—Mayor Joseph and Pres. Johnson, of the board of trade, have left for Montreal, to meet the C. P. R. executive in conference with the proposition to bring the C. P. R. through from St. John over its own rails. Propositions have been made by the city and county of Halifax and other counties through which the railway would pass, also by the provincial government.

Gold in Strange Places. Ottawa.—Wilson Fraser, Yukon mining man, has presented the Dominion geological survey with a collection of gold and copper and silver, valued at ten thousand dollars which were taken from glaciers of partridge, grouse and other ground birds found in the Yukon.

New York's Big Bank. New York.—New York is to have another \$50,000,000 bank by the consolidation of the Mechanics' Savings and the National Copper Bank, known as the Mechanics and Metal.

SETTLEMENT DAY BEST IN YEARS

Farmers of Western Canada in Prosperous Circumstances, and are Meeting Paper When Due

Regina.—The best settlement day in years is the way one banker expresses his opinion of Nov. 4, 1909. This is the day with the banks and implement houses and in fact with business concerns of all kinds. It is the fourth of the month that most of the paper comes due anyway and on November 4 there is an enormous amount of it falling due. The implement houses made their notes for this day and the result is that thousands of dollars were paid in raising notes and other paper. The banks all had the same story that the people are settling remarkably well and that there is plenty of money in the country. Last year it was thought that the money came in fairly well, but this year has exceeded it largely. The big banks are working overtime handling business.

The experience of another banker is characteristic of them all. "I was told by one man, the biggest account I have," he said, "that not one of his creditors had failed to come in with the money, and I myself have had only one man return his bill."

Merchants and implement houses get their money from the farmers, and they in turn pay it into the banks to extend the most commercial paper. The percentage of failures is much smaller than in former years and bankers find that the money is much easier than it was a year ago.

Big Strike in Nova Scotia Iron Mine. Halifax, N. S.—The Nova Scotia Steel and Coal Co. has struck a thirty seven men of iron ore on their Wabana property.

The company have been looking for a means to extend the life of the Wabana Tunneling work has been going on all that time. The tunnel to the new shaft is about a mile and a half long, and extends that distance under the sea. The Dominion Iron and Steel Co. tunneling is a considerable undertaking. The Nova Scotia Steel and Coal Co. had to lease or take over the tunneling work, and at present both companies are working to extend the tunneling work. The tunneling work is now being worked by the Nova Scotia company is thirteen feet thick. As the tunneling work is thirty feet, it is seen that it is of immense value.

The comparison of the new seam, two feet of solid ore, two feet of broken ore and the three feet of solid ore of the richest kind.

Thirty-one Miles of C. P. R. Freight. Winnipeg.—The C. P. R. has been making and breaking freight traffic recently this season over the line. The grain movement began, and recently they touched a new high water mark. During 24 hours a total of 1,380 freight cars were handled in and out through the Winnipeg terminals. This does not include the regular passenger traffic, which was also heavy. Had these cars been placed in one single train, it would have made a train 31 miles in length. During the day 1,613 cars were received and 1,346 were forwarded. 1,099 were loaded, 887 empty. Of the cars received 1,376 were loaded and 963 were empty. Movement of freight cars on the system were in proportion, and all terminals report an exceedingly heavy traffic.

West Indian Trade to Benefit Canada. London.—Speaking at the West India club, Col. Seely, the under secretary of state for the colonies, remarked that the Royal commission on trade between the West Indies and Canada, which was unique in its constitution, was proof of the growing sense of imperial unity. He expressed the sympathy of the colonial office in its work. Sir Daniel Morris emphasized the necessity of better trade communication between Canada and the West Indies, pointing out that the Canadian government was prepared to increase its subsidy.

He also paid a tribute to the Canadian government for its efforts to encourage West Indian trade, and said the commissioners report would be of practical benefit to the business people of the West Indies.

Lords Will Reject Bill Conditionally. London.—The Daily Telegraph says it understands that it has been definitely settled that the Lords Landowners, the leader of the opposition in the house of lords, will move a resolution in the upper chamber of parliament defining to accept the finance bill until its principles have received the sanction of the electors. The Daily Telegraph adds that it learns that the adoption of this resolution by a majority of the members of the house of lords is certain.

Work Dominion Co.'s Mines. Halifax.—During the past week one hundred new men were put to work at the different colonies of the Dominion Coal company, and more are expected to start banking coal at No. 2 station shortly, and it will be continued during the winter. It is likely that this will be the largest bank ever accumulated in this district. The daily output of the mines in the vicinity of 5,000 tons.

In Favor of Canadian Navy. Ottawa.—Frederic Hazard, of Prince Edward Island, who was in the city on departmental business, expresses the opinion that the great majority of the people of the Maritime provinces are agreed that naval protection is necessary for the Dominion. He is a staunch supporter of a Canadian navy, and it is built and equipped in Canada.

IMMIGRATION GROWING

BIG INCREASE OVER FIGURES OF LAST YEAR

Enormous Gain From The States. Immigration for the first six months increased 20 per cent—Gain in Customs House Receipts Greatly Exceeded Those of Same Period Last Year.

Ottawa.—Immigration into Canada for the month of September was 13,943, an increase of 20 per cent over September, 1908. The total immigration for the six months of the present fiscal year was 120,933, as compared with 100,477 for the same period of last year, an increase of 20 per cent. Immigration for six months from the United States was 96,486 as compared with 84,289 for the same period of last year, an increase of 65 per cent. Immigration via ocean ports was 64,447, as compared with 58,212 for the same period of last year, decrease of 3 per cent.

Customs house receipts for September were about a million dollars in excess of those of September, 1908. Total collections amounted to \$5,256,736, an increase of \$4,316,473 in September, 1908, an increase of \$920,263. For the first seven months of the present year, the customs collections exceeded those of the same period last year by \$6,838,614.

Labor Deputation Presents Request. Ottawa.—The Dominion Trades and Labor Congress sent a deputation to the government in which among other things the removal of Lieut. Gov. Gibson, Ontario, was requested. The deputation was made by the government. The request was presented in the form of a resolution of the Dominion Trades and Labor Congress to the government on congratulations to the government on increase to letter carriers.

Australia Solves The Meat Problem. London.—The arrival of a cargo of chilled beef from Australia said to be the largest ever landed in this country, is foreboding the relief of the British meat market from "the danger of a shortage." The cargo, which was the result of previous attempts to bring chilled beef from Australia have failed, the time of transportation being so great that the meat invariably was condemned upon its receipt.

Many Changes in Canadian Tariff. Ottawa.—A number of changes in the new tariff are announced. They deal with materials imported for the use of manufacturers in their own factories. The Ross rifle factory, manufacturers of horse shoe nails, tanners, electric lamp makers, typewriter and sewing machine, moving picture manufacturers and the printer paper manufacturers are among those who benefit.

Honduras Gave Its Sailors a Bath. New Orleans, La.—The entire navy of Honduras was sunbathed by a bath of fruit bath, according to messengers arriving from British Honduras. The bath was a public bath, sank near Port Cortez. As the accident occurred to the shore, no lives were lost. The bath was a public bath, sank near Port Cortez. As the accident occurred to the shore, no lives were lost.

Many Institutions to Receive Legacies. New York.—The will of the late John Stewart Kennedy left \$25,000,000 to a number of religious, charitable and educational institutions in different parts of the country. In addition to this he left \$50,000,000 to his wife and his children, and gifts of from \$500 to \$2,000 each to his employees.

Big Changes in the C. P. R. Montreal.—It is stated here that Robert Kerr, general passenger agent, and Wm. Still, assistant passenger agent of the Canadian Pacific will shortly retire from the company's service. C. E. Usher will go to Montreal to succeed Kerr. C. E. McPherson will succeed Usher. H. W. Brodie succeeds McPherson.

Bishop Prosecuted for Having Dream. St. Louis.—A Belgrade, Serbia, priest, Bishop Mikalor is to be tried for high treason for having dreamed that he saw a revolution in Belgrade. King of Serbia, the proclamation of former Prince George as King. The cabinet considered the dream and the proclamation of former Prince George as King. Another Ontario Railway Proposed. London.—Pardon and Pardon, of this city, have given notice of application to the Dominion parliament for a railway company, capital \$2,000,000.

INCREASE OF ALBERTA SCHOOLS

Thirteen Inspectors Now Required for the Province—Large Increase in Number of Normal Students

Edmonton.—In the year 1905 when the province of Alberta was organized, there were only four school inspectors for the whole province, but by the year 1910 there will be no fewer than thirteen inspectors of provincial schools.

Premier Rutherford made this statement when he made public the formation of four new inspectorates in the province to meet the growing demands of the rapidly increasing school districts in the province.

He said that it has been decided to have the new inspectorates at Wetaskiwin, Olds, High River, and Vermilion and that the positions have been offered by the department to four schoolmasters who holding responsible positions in the teaching profession in the province. The proposed inspectors are G. F. McNally, of Strathcona, Wetaskiwin district; H. R. Parker, of Fort Saskatchewan, for Olds; J. C. Butchart, of Vegreville, for Vermilion, and J. V. Morgan, of Lethbridge, for the High River district. It is expected that all four teachers will accept the appointments.

It has been in the custom of visiting the province's normal school at Calgary at least once a year, and the premier, "and expect to make a visit in the near future. The number of students enrolled this year is about 130 whereas the attendance last year was about the 100 mark."

Franchise Will be Extended to Women. In the matter of the agitation at present being carried on by the women of Calgary and Edmonton for their right to the franchise, a telephone message to the Hon. H. C. Manning, the minister of public works, stated that they need have no fear as they would not be qualified as voters. It was stated that the franchise would be extended to the women of the province.

Previous to the receipt of this message, a meeting had been arranged for the women of Edmonton, of Macleod, and of Calgary, to discuss the matter. It was to be held at the home of Mr. Cushing, and it was decided to cancel the meeting.

May Increase Mining Land Taxes. Ottawa.—Mr. W. A. Weston, M.P.P., who was here on his way home to Fort Frances from Toronto, states that the government is considering a substantial increase in the tax on mining lands under the old law and under the new law, several thousand acres of this class of property in Thunder Bay are held by speculators who will not sell or lease, but are apparently only holding on, on the chance of discoveries being made nearby to increase their value.

Mr. Weston also states that he expects to see a fish hatchery established at the head of the lakes next year. He also states that he expects to see a fish hatchery established at the head of the lakes next year. Favor Homes for Released Prisoners. St. John.—N. B.—The N. B. P. U. executive decided to memorialize the federal and provincial governments to establish a home for released prisoners to teach them trades and give them a new start in life. It was stated that the Canadian association a protest against the publicity given to details of murder and divorce cases and other sensational matters. Mrs. A. Gordon Wright was elected delegate to the world's convention in Glasgow next June.

Balloonist Remained in Air 24 Hours. St. Louis.—After being in the air for twenty-four hours the balloon, Moha II, which ascended here in an effort to lift the Lahm cup, descended at five o'clock at Lexington, Tenn. John Berry, pilot, and Miss Julia Hoerner, aide, telegraphed that the balloon had descended without accident. The balloon travel led only 250 miles having been practically becalmed for ten hours during the day.

Business in Canada Not Better. Toronto.—Deputy Minister of Trade and Commerce O'Hara, who is in the city, said the present year was the best Canada had seen in her history in the way of business, returns from all parts show this and inquiries in all departments of commerce are larger than ever before. The government will do all in its power to aid the grain shipper, and to give him a fair price for his grain, and to give him a fair price for his grain, and to give him a fair price for his grain.

Indians Arrested in Large Numbers. Victoria, B. C.—Fifty armed constables raided the Indian village at Klaho, near the mouth of the Skeena river, and after a short fight arrested several Indians, who had been causing trouble to the lives of white men in the district.

C. N. R. Raises the Five Millions. Montreal.—A cable received here states that President Mackenzie of the Canadian Northern has succeeded in floating a \$5,000,000 bond issue on the London market.

FOR CANADIAN NAVY

WILL START TO TRAIN OFFICERS AND MEN AT ONCE

Canada Will Borrow Two Cruisers from Admiralty for Dual Purpose—A Canadian Naval Vessel Will Probably be Established to Develop a National Navy—Our Own Vessels Will Be Built Soon.

Ottawa.—One of the first steps towards the actual establishment of the new Canadian navy will be the securing from Great Britain of two second or third class cruisers from the imperial fleet for the dual service as training ships for men and officers and as fisheries protection vessels in Canadian waters.

The cruisers will be loaned to Canada pending the development of a national navy. The cruisers will be loaned to Canada pending the development of a national navy. The cruisers will be loaned to Canada pending the development of a national navy.

One of the cruisers will be used on the Atlantic coast and the other on the Pacific coast. This will enable an immediate beginning to be made in the training of naval officers and men, and when the new Canadian war vessels are completed, two or three years hence, the Canadian government and the admiralty.

A Canadian naval academy will also probably be established as a necessary adjunct to the development of a national navy.

Big Coal Areas. Edmonton.—After several months spent in surveying huge coal areas of the Pacific coast, a coal company at South Saskatchewan has been found. The city of surveyors sent out last year, that company, in charge of A. C. Finlay, returned from the coal hills and are preparing to spend the winter in the area.

The party has concluded the laying out of the big coal areas, which the Montreal Bureau of capitalists, known as the Pacific Coal Co., will develop in the near future. Several large tracts of land have been purchased at various points on the property, and the indications are that the entire area of several hundred acres, with a deposit of coal that has all the excellent and useful qualities of the Crown coal.

The coal area is now in readiness for development, but it will not be until some time in the future that the branch line from Entwhistle south into the coal fields that development can be carried on.

Will Bring Out Domestic. Ottawa.—The Salvation army is going to inaugurate a new feature in its work of bringing immigrants to Canada from the old country. There has been considerable criticism from various sources about the classes of immigrants brought here from English towns and cities, and that they were useless as farm laborers. Lieut. Col. Howard, of Toronto, secretary of the Immigration of the Salvation army, was in the city and told the citizens that he was leaving in a few days for England to choose 100 domestic servants and experienced farm laborers from the rural districts of the old country. He expects to bring very valuable acquisitions to Canada.

Earth to Pass Through Halley's Comet. Cambridge, Mass.—"Halley's comet will not only pass across the face of the sun on May 17, but the earth will pass through the tail of the comet," said Director Pickering, of the Harvard observatory. The tail of the comet is made up of gases—acetylene, carbonic and several others, which are said to be poisonous. The earth shall not perceive it. In case these gases were apparent to the people, the result would be disastrous. In 1860, when another comet was passing, there was a great display of shooting stars. We may have such a manifestation when Halley's comet passes."

Expect Better Prices. Montreal.—What is termed to be an extraordinary condition exists here regarding grain shipments through Montreal. While the wheat crop of Saskatchewan, Alberta and Manitoba is estimated to be 25,000,000 bushels larger this year than last, shipments through Montreal are much less. New grain exports are 5,444,920 bushels this year, as compared with 8,868,969 for the same period last year. It is felt here, however, that this is due largely to the fact that western farmers and grain men are holding off for better prices.

German Policy Purely Commercial. Philadelphia, Pa.—Declaring that the world policy of the German empire is purely commercial and without any territorial ambition or deep secret designs on the world's commerce, Johann Heinrich von Bernstorff, German ambassador to the United States, declared at a luncheon given by the American Academy of Political and Social Science here on "The Development of Germany as a World Power."

Want Fruit Markets. Nelson.—At the meeting of British Columbia Fruit Growers' association at Creston, the settlement was expressed in favor of government instituting a central news bureau by which reports of market demands and if required, the necessary work be collected and distributed to fruit growers.

AN OPPORTUNITY TO DO GOOD

It is said that next week, two of the sisters of the poor are coming to Crossfield. They are asking some help to build a refuge house, where our orphans, our poor and helpless people will be received, and well nursed, free, without any consideration of nationality or belief.

They have already been collecting in Carstairs and up north. It is reported that these devoted ladies have been very much pleased with the generosity as well as the kindness of everyone.

In such occurrence, we feel assured that all, business men and farmers, of our growing town will have a heart to show they are not behind in generosity.

Is it not the duty of every one of us to help, as much as we can, the starting of the most needed, and the most charitable institution of the Northwest?

And so we will prove, that, no matter where they come from, those doing good are always welcome, friendly received, and generously helped in Crossfield.

DISASTROUS FIRE AT INNISFAIL

A disastrous fire visited Innisfail on Thursday night resulting in the death of three persons and the total loss of the Hevora House, White's bakery, and almost the total loss of T. S. Kirkham's house.

An act of heroism was performed by the proprietor's daughter, Ethel, aged 16, one of the victims. She made good her escape on to the veranda and could have got down to the ground safely but she went back to try and save the life of her little brother Johnnie, aged 12. This was the last seen of her.
